

Good Earth

COFFEEHOUSE™

To our community,

Thank you for your ongoing support. We care about our communities and appreciate your concern for us as well.

We began adjusting to life in the context of a pandemic the week of March 2nd. Since then we have made many changes to adapt. You may read about these changes in our previous news posts.

The most significant changes underway now are restrictions to the services we offer, reductions in hours of operation, and in many cases café closures. You will find this information updated at www.goodearthcoffeehouse.com/locations.

Many of our coffeehouses throughout Alberta are open, serving only take-out per provincial mandate. We are open for take-out in Victoria, BC locations. Some cafes in Saskatchewan and Manitoba have remained open.

Good Earth Coffeehouses remain open in the following health care sites to serve our incredible health care workers, to whom we are so grateful:

Foothills Medical Centre, South Health Campus, Rockyview General Hospital, Alberta Children's Hospital, and Chumir Health Centre in Calgary, AB; Royal Jubilee Hospital in Victoria, BC; and Jim Pattison Children's Hospital in Saskatoon, SK.

We are encouraging our customers to stay connected with their community coffeehouse. You can order through a variety of methods that reduce contact. These include our Good Earth Rewards **mobile order and pay app**, Skip the Dishes, and by phone. We are making **curbside order pick-up** available at many locations, for orders placed through the mobile app, by phone call, and our online catering order form.

We are working together to maintain a respectful and cooperative effort throughout our cafes based upon the clear direction from our health authorities. **And as always, we are grateful for your support, your caring, and your feedback.**

Let's get through this together.

Nan and Michael, Founders
