

# Good Earth

COFFEEHOUSE™

To our wonderful community,

We are happy to report that most of our coffeehouses have re-opened and many have re-established seating indoors and on patios (hurray!). Our craft Cold Brew is chilling. We're pouring refreshing new summer drinks. And we look forward to welcoming you back!

Our enhanced safety measures are in place, including:

- Hand sanitizer available for your use
- Physical distancing markers on floors
- Seating area capacity reduced to 50%
- Proper distancing between seats/tables
- Physical shield at the front counter
- Contactless transaction available
- Staff wearing face masks
- Frequent cleaning and sanitizing of all high-touch surfaces

A few locations remain closed for now while others are operating under reduced hours. You will find this information updated at [www.goodearthcoffeehouse.com/locations](http://www.goodearthcoffeehouse.com/locations).

We are grateful to all our Good Earthlings on the frontlines and our partners in the food supply chain who have supported us so we can support our communities. Frontline folks of all stripes, we salute you!

We encourage you stay connected with your community coffeehouse. You can order through a variety of methods that reduce contact. These include our Good Earth Rewards **mobile order and pay app**, Skip the Dishes, catering on our website, and by phone.

We are working together to maintain a respectful and cooperative environment in our coffeehouses based on direction from our health authorities. **And as always, we are grateful for your support, your caring, and your feedback.**

**Let's adapt and thrive together.**
